

XGF 24-24-8F type Three in One Machine

The XGF 24-24-8F three in one bottle integrates bottle washing, filling, and sealing. Based on the introduction, digestion, and absorption of advanced foreign technology, and according to the filling process requirements of alcoholic beverages, purified water, mineral water, and other beverages in China, it is innovatively designed and developed as a bottle production line with advanced technological level.

Technical Parameters

主要技术参数 Main Technical parameters					
型号 Model	冲瓶头数 Washing heads	灌装头数 Filling heads	旋盖头数 Capping heads	生产能力 (瓶/小时) Production Capacity (b/h) (500ml bottle)	主电机功率 (kw) Power of main motor (kw)
XGF-18-18-6	18	18	6	4000	3.8
XGF-24-24-8	24	24	8	6000	5.5
XGF-32-32-10	32	32	10	10000	7.5
