KDV-6 Counting & Filling Machine

KDV-6 (automatic counting machines) is integrated two units KDC-101 (counting machines), conveyor and electrical control to achieve tablet automatic counting Machines line. KDV-7 (automatic counting & capping machines) is integrated two units KDC-101 (counting machines), conveyor, feeding bottle turn table, automatic capping machines and electrical control to reach tablet automatic counting machines, bottle capping line.

Both system available to link with other packing machines to connect fully automatic tablet/capsule counting Machines line; it could cost down labor power 3- 5 persons, less labors expenditure.

Applicable industry: Pharmacy, Biotechnology, Health Supplements, Nutritional Supplements, natural food…etc.
