

## *Shrink Sleeve Labeler Model SBM-L2500SS*

The SBM-L2500SS shrink sleeve labeler is a fast, efficient and easy-to-operate. The labeling system can handle tamper-evident, overall, middle, and full-body sleeve applications. The shrink sleeve labeling machine allows for production rates up to 250 products per minute. It will easily handle a wide range of container shapes and sizes.

### **Features**

- Robust stainless steel and anodized aluminum construction.
- Safety guard provides the operator protection during labeling.
- HMI Touch screen ensure user-friendly operation.
- Cutting assembly equipped with servo motor for high accuracy.
- Easy to operate settings and easy product changeovers.

### **Options**

- Integrated conveyor.
- Electric or Steam heat tunnels

## Technical Info

<b>Model</b>	<b>SBM-L2500SS</b>
Output Speed	100-250 bottles per minute
Bottle Diameter Range	28-125 mm
Sleeve Length Range	30-250mm
Label Thickness Range	0.03-0.13mm
Core Inner Diameter	5"-10"(Free adjustment)
Material	PVC, PET, OPS
Power supply	AC220v/50Hz or Optional
Power Consumption	3kw
Machine Dimension(L×W×H)	2100×850×2000mm
Machine Weight	400kg
