

## *EPI High Speed Label Applicators M-Series*

The M-Series wipe-on high speed label applicator truly advances the state of the art. Not only is it significantly smaller than its competition, it is light years more flexible. Any orientation, limitless unwind/rewind combinations and its diminutive size allow these high speed labelers to go places and do things the competition just can't.

### High Speed Labelers Save You Time, Money & Complexity

The M-Series Direct Apply Labeler may be the perfect fit to make your production line even more efficient. Have an application that requires multiple labelers? The M-series is so advanced that multiple label heads can be controlled from the same touch screen, saving you time, money and complexity.

### High Speed Label Applicators & Printers

Built for flexibility, the M-Series High Speed Labeler can work in conjunction with a printer for date codes and lot tracking.

### Features and Benefits

- Dependable, Reliable, and Versatile
- Small and More Flexible
- Automatic Calibration
