

Automatic Bottle Cold Glue Labeling Machine JHT06

This machine adopts the design first in stick mark scalloped turned pole again by rubber wheel stick take a few glue and then to label transmission device in sticky get a tag, to vacuum suction paper roller position, by off label grasp take off label. At the same time will label switched to vacuum sheet transfer belt, use the vacuum suction, make tags adhere to the sheet transfer belt into the labeling area, make tags enclosed by chain conveyor ether in the bottle. So circulates movement, the complete machine production process.

Features:

- All mechanically operated design with all transmission mechanism in enclosed oil-bath thus ensures smooth, quite, low noise
- All material is made of stainless steel for durability and easy in cleaning
- Good for both individual operation and connection line
- Small floor place, Compact and easing move-able with casters
- Most suitable for food and beverage industries
- The whole machine is designed to meet GMP standard

Application:

Function: Automatic cold glue labeling machine	
Suitable for: Glass bottle/ Plastic Bottle / Jar / Can	Bottle Diameter: 28~ 125mm
Label Materail: Paper label	Max Capacity: 6000BPH
Application: Wine Bottle / Beverage Bottle / PET can / Pop can / Plastic cup / Bottle cap	

Technical Data:

Model	JHT06
Max Capacity:	6000 Bottles/hour
Label length	10-250mm
Label height	20-100mm
Bottle diameter	Dia 28-125mm
Label material	Self adhesive label / Sticker label
Electrical power	0.5kw
Overall dimensions	2.2X1.0X1.4m
Weight	320kg
