

Body Label Sleeve Applicator LG-150(CE)

Auto Body Label Sleeve Applicator, LG-150 is designed matching CE certificate, higher safe standard. Machine is designed with SUS frame to match production requirement of Foods & Pharmaceutical industries.

Also, machine could be installed remote control feature to monitor production.

Features:

- To increase efficiency & save labor cost.
- To reduce cost & enhance competitiveness.
- Standard Panasonic HMI control systems, or options of AB, Siemens, Omron...etc. various European, American & Japanese brands.
- It can be installed perforation device to punch varied perforating pattern such as vertical, horizontal, L-type or V-type lines.
- Machine adopted durable SUS 304 cover with nice appearance.
- Modularized cutting unit for easy change.
- Servo motor systems are adopted for label feeding & cutter to keep high accurate label cutting.
- HMI + PLC control system are easy operation with many set of memories to help worker save minutes of adjustment.
- Width working range for easy size change & maintenance.
- Individual label roll loader can be moved to fit workshop; it is designed with power winding out & a dual roll holder to reduce label replacing minutes. Machine is designed matching CE certificate, higher safe standard.

Specification:

- Power: 3Ø 220V 50/60HZ
- Machine Dimension: 1093x 1075 x 1730~2280 (m/m)
- Applicable Label Thickness: 0.035 - 0.07 (m/m)
- Applicable Label Lay Flat Width: 40 - 240mm
- Applicable Label Cut Length: 40 - 200 (m/m)
- Applicable Material: PVC, PET, OPS, PLA
- Applicable Products Shape: Round, Square, Oval & Others
- Max. Speed: 300 (Max. BPM.) Increase or decrease depending on the length of the label.
