

## *BC-350 Automatic Blister Forming Machine*

### **Application:**

- suitable for forming various kinds of " blister "
- apply for packing of battery, gule, lipstick, chopstick, shaver, hardware, pen and so on.
- fully automatic blister forming machine

### **Technical Parameter:**

| Items               | Parameters                                       |
|---------------------|--|
| Max forming area    | 250mmX150mmX50mm                                 |
| Max Card size       | 350mmX300mmX50mm                                 |
| Recycle             | Paper card/PVC 10-25times/min                    |
| Traveling length    | 35-200 mm  |
| Power of heating    | 3.5KW  |
| Total power         | 3phase 4 wires 380V 50HZ ( 9KW ) (for China)     |
|                     | According to Client's requirement (for Overseas) |
| Power of main motor | 1.5KW  |
| Power of servomotor | 1KW  |
| Power of forming    | 4KW  |
| Air compressor      | ≥0.6m <sup>3</sup> /min                          |
| Size of machine     | 3000mmX1550mmX1750mm                             |
| Weight              | 1800Kg   |
