

## Automatic High Speed Carton Package Machine XWZ300

XWZ300 Automatic High Speed Carton Package Machine is a continuous operating automatic horizontal type cartoning machine. It adopts PLC, Human Machine interface, creative designs the speed adjustment technology and the automatic controlling technology of integration of machine, electricity and light. Totally conforms with GMP requirements. The machine is composed of paper folding machine and carton packing machine, etc. Its box opening head can open 3 boxes each revolve, the highest speed can reach 300 cartons/min.

### Technical Parameter:

Capacity (Cartons/min)	100-300
Box dimension (L×W×H)	(70-190)×(35-75)×(15-70)
Packing material	300-350
Leaflet dimension (L×W)	(100-260)×(100-160)
Leaflet pap required (g/m <sup>2</sup> )	50~70
Clean compressed air(pressure)(Mpa)	0.5~0.7Mpa
Air consumption(m <sup>3</sup> /min)	≥0.3
Power(mm)	AC380V 50HZ 5KW
Overall dimension (L×W×H)(mm)	4500×1450×1700
