

Automatic Round Bottle Labeling Machine | VTOPS-L-RB

Automatic round bottle labeling machine suitable for all kinds of round or cylinder containers. Such as: round plastic bottles, round glass bottles, round cans, round jars and more.

Features:

1. Its features simple structure and operation. High accuracy attaching and reliable property.
2. The machine adopts mature PLC control system to ensure the stable running in high speed.
3. Touch screen makes easy reading and excellent looking.
4. More than 10 groups of labeling parameters saved, makes setting rapidly.
5. Labeling is performed smoothly with no creases with the use of elastic cotton idler wheel.
6. Automatic photoelectric detection functions including canceling labeling without objects there and stopping running or raising an alarm without labels to use to avoid omitting or wasting labels.

Technical Parameters:

Model	VTOPS-L-RB
Labeling Speed	40-250 pcs/min
Labeled Error	≤ 1mm
Label Size	(L)20-300mm (H)10-180mm
Containers Size	Φ20-φ100mm H20-200mm
Roll inside(mm)	Φ76mm
Roll outside diameter(mm)	Maximum Φ300mm
Machine sine (mm)	1700*650*1300mm
Power	AC220V 50Hz 1.5kw
Machine Weight	180 Kg
