

## Trough Mixer CH100/200/300/400/500

This machine is designed for mixing powders or pastes. It is a horizontal trough type mixer with single stirring arm. The stirring arm is removable so that it is easy to clean. The surfaces which may touch the mixing materials are all made of stainless steel 304/316L, so they have good corrosion resistance. The mixing trough can automatically reverse for discharging the mixture.

### Specification:

Model	CH100	CH200	CH300	CH400	CH500
Volume(L)	100	200	300	400	500
Mixing arm speed (r/min)	24	24	24	24	24
Tilting angle of the trough (°)	360	360	360	360	360
Tilting speed of trough(r/min)	9	9	9	9	9
Main motor (KW)	1.5	4	5.5	5.5	7.5
Assistant motor (KW)	0.75	1.1	1.1	1.1	1.5
Overall size (mm)	1380*500 *900	1670*600 *1150	2150*700 *1250	2280*800* 1250	2400*900 *1250
Weight(kg)	270	600	750	780	820
