

QDFM-125 Manual Tube Sealing Machine

Tube sealing machine can realize various folding packaging of metal tubes. The same machine can easily realize the packaging of plastic tubes and metal tubes by changing molds and accessories. It is an ideal equipment for sealing aluminum tubes, plastic tubes, and composite tubes in cosmetics, pharmaceuticals, food, adhesives and other industries, and meets the requirements of GMP specifications.

Technical Parameters:

Model	QDFM-125
Power	1200W
Sealing diameter	φ5-80mm(100 mm can be customized)
Processing height	0-300mm(customizable)
Sealing speed	about 15 PCS/minutes (operation proficiency)
Dimensions	1100*460*450mm
Weight	66kg
Working frequency	20KHz
Power supply	Single-phase AC 220V 10%, 50Hz (customizable)
