

## *BTB-400F Second Heat-Shaping Overwrapper*

BTB-400 automatic full-automatic transparent film packaging machine is widely used in the collection of various box-type items in medicines, foods, key products, cosmetics, daily necessities, stationery, poker and other industries. . The products packaged by this machine have the functions of "three preventions and three improvements", there is anti-counterfeiting, moisture-proof, and dust-proof; improving the grade of products, increasing the added value of products, and improving the appearance and decoration quality of products. The machine adopts imported PLC control, electrical integration operation system. With reliable performance and convenient use, it is an advanced three-dimensional packaging device for bag-in-box or larger articles in China.

### **Features:**

- Second heat shaping make the box more beautiful
- Adopting the man-machine interface, PLC control, Failures diagnosing software.
- Adopting the servo motor to feed film. The speed and the length can be adjusted. Using the film smooth and length accurate.
- Adopting full cylinder drive. Steady running. Accurately Synchronizing. Conveniently adjusting hard sealing.
- Compact structure. Easy to operation and Manipulating. complete safety device

**Parameter:**

Model	BTB-400
Packing Speed	15-40P/min
Packing Size	L(100-280)*W(40-200)*H(20-90)mm
Packing Material	BOPP Film
Film Width	Max.400mm
Machine Dimension	3150*1200*1650mm
Machine Weight	About 1000kg
Total Power supply	5KW
Voltage Supply	220V 50/60HZ
Air Pressure	7.5kg/cm <sup>2</sup>
