

ST-6030AH+SM-6040 Auto (PE) Shrink Packaging Machine

Bottle shrink wrapping machine is able to complete piling, wrapping, sealing, shrinking and cooling automatically in a whole process. Working with constant temperature PE shrinkage furnace, automatic shrink packaging machine is able to ensure perfect packaging effect. The whole production process adopts advanced technology from German and is based on European standard. All the electrical units are from international famous companies such as OMRON, SICK, NORGREN and MITSUBISHI, etc.

Application

Bottle shrink wrapping machine is suitable for bottled products without cork bases such as pop can, glass bottle, beer, mineral water, beverage and commodity. It is applicable for PE and PVC shrink film.

Features

1. Finished products of bottle shrink wrapping machine have compact structure and neat appearance. They have reliable performance for storage and long-time transportation.
2. Materials can be fed in single line, two lines or three lines.

Technique Parameter

Model	ST-6030AF
Horizontal Height and Length of Feeding Conveyor	850±50 mm/1500 mm
Max Packing Dimension	L600×W300×H300 mm
Packing Speed	8-18 pcs/min
Rated Power	1Φ/220V/50Hz/2KW
Shrink Time/Temperature	0.5-1.5S/0-0.6S/0-250°C
Width/Thick of Film	MAX 600 mm/0.04-0.12 mm
Dimension	L3840 × W1000 × H1950 mm
Gross Weight	600 kg
