

## Steam Shrink Tunnel ESTC-1150

### Description

- Steam tunnel included steam generator heating boiler equipment. Complete design.
- Steam generation capacity of steam heating boiler is 54KG/HR. Shrinkage for liner bottle by 100 bottles per minute.
- Steam nozzle adjustment valve on the outside can be directly adjusted.
- Steam nozzle design. Adopt universal design can be up and down. Tilt design after adjustment lever to adjust the scale can be clearly marked for user-friendly.
- Enclosed design for tunnel door and prevent for steam water drip.

### Specification

Model	ESTC-1150
Machine Dimensions	1500L x 1060W x 2280H mm
Tunnel Dimensions	1500L x 200W x 450H mm
Blower Motor	3P / 220V ~ 380V
Main Motor	0.4 KW
Steam Pressure	0.5 ~ 3.5 kg/cm <sup>2</sup>
Exhausted of Steam	50 kg/hr
Machine weight	About 300kg
Conveyor	4M with motor
Total power with boiler	38 KW
Electric steam boiler	EB-36KL
Max working pressure	10kg/cm <sup>2</sup>
Power load	36 KW
Feed water pump motor	0.375kw
