

## ***BXGF series glass bottle vodka/vinegar/soy sauce rinsing filling capping 3 in 1***

The machine is mainly used in vodka/wine/soy sauce so on filling operations. The machine will rinsing, filling and capping functions together in one body, the whole process is automatic. The machine adopt the vacuum filling valve for packaging product in glass bottle, by adopting advanced technologies both at home and abroad to make the filling is faster and more stable, so this machine compared with the same specifications of the machine with higher yields, greater efficiency. Mean while, we are able to provide complete high-efficiency beer filling production line for the beer breweries.

### **Technical parameters**

<b>Model:</b>	<b>BXGF18-18-6</b>	<b>BXGF24-24-8</b>	<b>BXGF32-32-10</b>	<b>BXGF40-40-12</b>
Capacity:	5000-6000	6000-8000	10000-12000	12000-15000
Bottle type:	Glass bottle			
PET bottle: (mm)	(Bottle Diameter): $\phi$ 50- $\phi$ 90mm (Height):150-300mm			
Cap:	Metal cap/aluminum cap			
Filling temperature:( $^{\circ}$ C)	Normal			
Rinsing pressure:(Mpa)	$\geq 0.06$ Mpa $\leq 0.2$ Mpa			
Motor power: (kw)	3	4	7	9
Overall size:(mm)	2800*2050*2800	3100*2400*2380	3800*2800*2800	4300*3300*2800
Weight: (kg)	3500	5500	7000	9000
