

Strip Packing Machines SB Pack 2T/4T/6T/8T/10T/12T

Bhagwati's Automatic high speed packing machine with a capacity up to 2500 tablets per minutes. In strip packing machine wide range of products can be packed automatically / semi automatically. To operate the machine is very simple. The product is fed through hopper and feeding device flows to the heat sealing roller cavities, the desired laminated foil from the two rollers is drawn on the sealing rollers which packs and seals the products continuously. The sealed strip passes through the vertical and horizontal cutters to get desired strip sizes.

Application of Strip Packing Machine

Strip packing machine is extensively used to pack tablets, capsules, caplets, coated tablets, soft gelatin capsules. The same is also used to pack supari, tobacco, refills, battery cells, mats, bearings, oil seals, steel balls, chewing gum, toffees etc.

Salient Features of Strip Packing Machine

- Suitable for most heat sealable foils like aluminum poly, glassine poly, paper poly etc.
- All parts are standardised which ensures quick inter changeable.
- There are 5 different models, capacity ranging from 400 to 2500 tablets per minute.
- Trouble free smooth operation

Technical Data of Strip Packing Machines
