

QNXB330 Servo Control High-Speed Packaging Machine

This machine is suitable for automatic packaging of single piece of biscuit, pie, wafer, snack, medicine, soaps, tissues, chocolate, etc.

Main technical data:

- Capacity: 90-240 bags/min
- Product size limits: length: 70-400mm width: 30-120mm height: 5-35mm
- Floor space (L x W x H): 3200mm X 2150mm X 1750mm
- Power: 6.5kw
- Net weight: 850kg

Mechanical Features:

1. Automatic feeder is available to achieve connecting production line directly
2. Center height of the end sealer can be adjusted to adapt the height of packing items
3. Low noise, light vibration and easy maintenance

Electrical Features:

1. Digital servo motor control system
2. Operating status can be displayed and parameters can be set through LCD screen
3. Frequency control, convenient, accurate and reliable
4. Eye mark can be positioned and tracked automatically
5. Length of packing bag can be measured and memorized automatically
