

Glass Bottle Alcohol Filling Machine BXGF-series

This glass bottle alcohol filling machine combines washer, filler, and capper (three-in-one mono-bloc) for wine (alcohol, spirit, liquor etc.)

This mono-bloc machine is quite easy to be operated and maintained with the adopting of JAPAN MITUSBISHI PLC control of frequency conversion Timing.

All the parts contact with liquid are made up of high quality stainless steel, both exterior and interior of the machine are polished for easily cleaning and good hygiene condition.

Rotatory bottle washing machine has the functions of not opening the valve and rinsing without contacting bottle, which is working from bottle entrance, bottle transportation, bottle clipping, bottle turning around with synchronously rinsing inside of the bottle to water-dropping and exit have the functions of not opening the valve and rinsing without bottles.

Adopting the way of filling by holding the bottom of the bottle, and the function of pre-cover of the centralizing cover with high precise centralization, which ensures the right seating of mouth of the bottle and filling valve.

This glass bottle filling machine is suitable for different caps, plastic screw cap, aluminum screw cap, crown cap etc.

It's easy to be maintained and used with the adopting of concentrating or automatic lubrication system and the structure of full-open protection.

The advanced CIP series can clean and sterilize all the containers and insides of all pipes before and after the operation.

Technical parameters:

Model	BXGF16-12-6	BXGF18-18-6	BXGF24-24-8	BXGF32-32-10	BXGF40-40-12
Production capacity (b/h)	2000-3000	3000-5000	5000-7000	7000-10000	10000-12000
Suitable bottle diameter (mm)	$\varphi=50-110\text{mm}$ H=170-310mm (Volume: 100-1000ml)				
Main Motor power	4.0kw	4.2kw	5.2kw	6.2kw	7.5kw
Overall dimension (mm)	2230×1630 ×2250	2600×1965 ×2250	2900×2200 ×2250	3880×2200 ×2250	3700×3000 ×2350
Weight (Kg)	3500	4000	4500	6000	7000
