

Horizontal Flow Packing Machine LK-100

Suitable for moon cake, biscuits, bread, candy, medicine, commodity, hardware, paper box, plastic tray and other regular objects packaging.

Features:

1. The key parts adopt stainless steel, can meet requirement of QS and GMP.
2. Dual inverter control, bag length can be set and take effect immediately.
3. High sensitivity photoelectric eye color tracing, digital input cut position which makes the cutting position accurate and beautiful.
4. Independent PID controls the temperature, and better suited to variety of packaging materials.
5. PLC control, self-diagnostics, fault at a glance.
6. Automatic calculation of yield, make the productivity accurate and clearly.
7. Mechanical design and transmission system are simple, easy to operate and maintain.

Parameters:

| Model | LK-100 |
|------------------|--------------------------------|
| Power supply | AC220V |
| Power | 3.4KW |
| Productivity | 35-225bags/min |
| Bag size | L65-160*W35-120*H5-35mm |
| Film width | 90~250mm |
| Packing material | OPP/CPP、PT/PE、KOP/CPP、ALU-FOIL |
| Machine size | L3900*W850*H1500mm |
| Net weight | 350KG |
