

Automatic Continuous Film Sealer JY-FRD10000

This machine is suitable for sealing the ready-made bags made of different laminated film or paper materials. It is widely used in different industries.

Technical Parameters

Sealing Width	5-12mm
Sealing length	No limit
Sealing thickness	0.01-10mm
Sealing temperature	0-300° C
Sealing speed	1-12m/minute
Power	220V/50Hz/0.5kw
Machine size	1000*400*450mm (L*W*H)
Machine weight	30kg
Manufacture date Printing method	Ink wheel colored printing
