

Double Twist Candy Wrapping Machine TPP-NJ550

This double twist candy wrapping machine for candies of various shapes, rectangular, square, round, oval, shaped candy.

Features:

1. This double twist candy wrapping machine has material entering device of candy-settling plate.
2. Double twist candy wrapping machine can realize packing with monolayer or bilayer packing. It can get 100% of packing rate, no empty package.
3. Computer photoelectric automatic tracking and frequency control of motor speed.
4. Double twist candy wrapping machine suitable packing material: cellophane, PVC, PPO, wax paper, composite material etc.
5. This double twist candy wrapping machine for candies of various shapes, rectangular, square, round, oval, shaped candy.

Technical Parameters:

Model	TPP-NJ550
Packing speed	≤550pcs/min
Packing specification of candy	L:12-32 W:12-26 H:6-20
Total Power	2.5kw
Power supply	380V
Dimension(L*W*H)	1800*950*1650mm
Weight	1050kg
