

Blowing Filling Capping Machine XLWF-10

Technical Features:

- 1: Friendly HMI with easy switch for multi-languages
- 2: Advanced reflection system by ceramic plate, heat-preservation system and heating system, preform can be heated evenly.
- 3: Unique high-pressure gas recovery system that saves more than 30% of compressed air
- 4: Ionized de-duster can be equipped to improve the cleanliness of the packaging container.
- 5: The tailored made servo stretching system can be adapted to preforms with various stretching ratio, achieving the variable speeds and high accuracy positioning.
- 6: The filling valve is designed with the tidy and safe valve body, the material quality can be fully guaranteed.
- 7: our 1500ml bottle water filling machine includes water bottle blowing machine, water purification system, 3 in 1 filling machine, sleeve labeing machine, printer, shrink wrapping machine.
- 8: we supply 1000-35000 bottles per hour for your choose, here I list a form to suggest the best selling model, you can take reference
- 9: this is our small bottle filling machine it can fill 300-2000ml PET bottle, if other size will be different machine.
- 10: Stainless steel 304 is main materail, according to different customers requirement, we also used SUS 316 for the water contact.

Product Details:

Type:	Filling Machine
Application:	Beverage, Chemical, Commodity
Packaging Type:	Bottles
Packaging Material:	Plastic
Driven Type:	Electric
Power:	216KW
Voltage:	220V/110V/380V/440V
Place of Origin:	Guangzhou, China (Mainland)
Weight:	2610KG
Certification:	CE ISO
Filling material:	Flowing Liquid
Warranty:	1 Years
Bottle type	PET Plastic Bottle 5L-10L
Material:	Stainless Steel 304/316
