

Automatic Packing Machine for Chicken Stock Cubes Into Boxes

The boxing machine can finish automatically folding leaflet, opening box, pushing product into box, printing batch number, and sealing etc. It is applicable for packing various solid regular objects like bouillon cubes, bread, cakes, bags, eye-drop, medicine board, cosmetics, and cookies etc.

Technical data:

Item		Parameter	Remarks
Speed		30-80boxes/min	Depends on products
Requirement for box	Material requirement	250-300/ m ² (white paperboard)	Surface must be smooth, can be sucked
		300—400g/ m ² (gray paperboard) 【 depends on box size】	
	Size range	Min: 30X20X10mm	
Max: 200X170X80mm			
Compressed air	pressure	≥0.6MPa	
	Air consumption	About 100-120L/min	
Power supply		220V(can be customized) 50Hz	
Main motor power		1.5kw	
Dimension LxWxH		3500X1350X1650mm	
Weight		About 1300kg
