

Automatic Automatic Fruit Juice Filling Machine RCGF14-12-5

Automatic orange juice hot filling machine for PET bottle. The standard type of RCGF series hot filling machine is “3-in-1”, aiming at special production condition, one disinfectant rinser can be increased to be 4-in-1 monobloc. The system gives full consideration for beverage’s characteristics (e.g. it is easy to have foaming for tea beverage and mixed juice.) and main technical requirement of hot filling.

Application:

Function: washing-filling-capping system	Control: PLC
Suitable: PET bottle with screw cap	Bottle Size: 200-2000 ml
Filling System: Hot Filling	Capacity: 3,000-4,000 BPH For 250-500ml
Application: Juice, tea, energy drinking and ect .	

Technical parameters:

Model	RCGF14-12-5
Capacity :(for 250-500ml)	3000-4000 BPH
Suitable bottle shapes	PET Circular or square
Bottle diameter	50-120 MM
Bottle Height	150-320 MM
Compressor air	0.3-0.7MPA
Washing Medium	Aseptic Water
Washing pressure	0.06-0.2mpa
Application	Juice/Tea/Energy drinking
Power	4.5 kw
Overall Dimensions	2230*1630*2250 mm
Weight	2200kgs
