

Heat Shrink Wrap Machine MB-200

Semi-automatic shrink wrapping machine packing machine for bottles is suitable for wrapping pop-cans, bottles etc. It works with PE shrink tunnels.

1. sealing and protect the operate meanwhile.
2. Double size fan carrying system ensures the perfect of sealing.
3. Imported AC contractor, the temperature is controlled by automatic.
4. Imported frequency converter, sleepless speed regulating.
5. Super cooling system to ensure the perfect shape of products quickly after shrinking.
6. The control panel be operated with safe and simple.
7. The imputing position can be adjustable precision base on the size of products.
8. The size of tunnel can be customized for your request.

Features

1. Automatic cover only artificial product placement film machine, the machine automatically push things, sealing, shrink packaging series of actions, greatly reduce labor intensity and improve work efficiency;
2. Mantle machine cutter with alloy blades, outside Teflon coated, non-stick knife, cut a good sealing effect;
3. Hot knife made of aluminum alloy and stainless steel heating plate, a longer life;
4. Film frame plus a tensioned membrane motors, avoiding the use of large volumes when PE membrane sealing problems;
5. PE film shrink packaging machine with chain mesh transmission, smooth operation;
6. Furnace using a hundred impeller blades, good hot air circulation effect;
7. Adopt Germany advanced technology, its main parts are domestic famous brands;
8. Stable and machine performance, long service life.

Technical Parameters:

Facility type	MB-200
Facility external size	L5050×W3300×H2100mm
Wrappage max size	L600×W400×H350mm
Shrinkage film size	PE,PVC,POF
Shrinkage thermo thickness	0.03-0.15mm
Thermo shrinkage tunnel temperature	160 - 260°can adjust at will
Max output per minute	8-12bag
Facility power	18Kw
Actual power	15Kw/hr
Pressure requirement	380/220V
Facility weight	1.2T
Fan machine	1.1Kw 2set 380V, 65W 4set 380V
