

SL-SBZB450RF Automatic Chocolate Heat-sealing Packing Machine Gold Chocolate

This packaging line is modified on the basis of the original SL-SBZB450D series folding packaging machine. We replaced the original glue-spraying sealing method with a heat-sealing method, reducing the glue-spraying device, meeting more customers' packaging requirements, and saving costs at the same time.

Technical Specification:

- Packing Speed: 200-300 pcs/min
- Chocolate Size: Max Length: 80mm; Min Thickness: 4mm
- Total Power: 4.0KW
- Wrapper Material: BOPP
