

## *OC-180C Inner/Outer Bag Drip Coffee Packing Machine*

The machine is suitable for all powder products, such as: coffee powder, tea powder, health powder ect, and bag types are back side sealing, three side sealing, four side sealing, it also has inner bag and outer bag, the one is ultrasonic sealing, and the other one is heat sealing.

### **Overview:**

1. The outer sealing paper is controlled by a stepping motor, with stable bag length and accurate positioning
2. Using PID to adjust temperature controller, temperature control is more accurate
3. Using PLC to control the action of the whole machine, the man-machine interface display, easy to operate
4. All accessible material parts are made of SUS304 stainless steel to ensure the sanitation and reliability of the product
5. Part of the working cylinder adopts original imported parts to ensure its accuracy and stability
6. The additional device of this machine can complete the functions of flat cutting, date printing, easy tearing etc.
7. Ultrasonic and heat-sealing forms can achieve linear incisions, save the filling space inside the ears, and reach 12G packaging capacity
8. Ultrasonic sealing is suitable for cutting all non-woven packaging materials, with high cutting success rate
9. The equipment can be equipped with nitrogen filling device, date printing device and stirring device, etc.

**Specification:**

<b>Model</b>	<b>OC-180C</b>
sealing method	ULTRASONIC SEALING/HEAT SEALING
driven tyle	PLC CONTROLLER
packing speed	40-50BAGS/MIN
measuring range	5-20G/BAG
inner bag	75MM*90MM
outer bag	100*125MM
total power	3.7KW
bag size	CAN BE ADJUST
bag pulling type	SERVO MOTOR PULLING
power	220V,50/60HZ/1.2KW
machine size	1450*700*193MM
machine weight	650KG
