

## *Link-50G Multifunctional Box Sealing Carton Sealer Machine*

Link-50G corner edge case sealing machine is driven by belts on four sides. It adopts sticky tape to seal, and the four corner edges seal up and down. Simple, fast and convenient, it can replace labor, improve production efficiency by up to 80%, and save 5-10% of consumables. It is a good choice for enterprises to save costs, improve production efficiency and realize packaging standardization. The carton sealing machine is divided into automatic corner sealing machine and semi-automatic corner sealing machine manually adjusted according to the size of the carton.

### **Features of carton sealing machine:**

- .Manufactured with international advanced technology, and selected imported parts and electrical components;
- The main color of this carton sealing machine is red, and the machine color suitable for the corresponding packaging line can also be configured according to the needs of customers;
- . Manually adjust the width and height according to the carton specifications;
- .The front end can be equipped with Yiyu-type carton sealing machine, which can be combined with 50A and 50C models to complete I-shaped carton sealing;
- .Equipped with blade guard. Avoid accidental stabbing during operation;

It can be customized, can be operated on a stand-alone machine, or can be used in conjunction with an automated packaging line. It is the choice for enterprises to save costs, improve production efficiency, and achieve packaging standardization.

### **Application range of sealing machine:**

Relying on the above advantages, the corner sealing machine is widely used in food, medicine, beverages, tobacco, daily chemicals, hardware, toys, electronics and other industries at home and abroad.
