

Link-500FS Small Sachets Spices Powder Automatic Filling Machine

Performance and features

1. Can automatically complete filling, measuring, bag-making, sealing, cutting, hot pressing, batch number and other work in the packaging process, photoelectric and calibration position need not be adjusted.
2. Intelligent control system, Chinese and English LCD screen. Only setting parameters can accurately control the operation of the system.
3. The heat sealer evenly controls the heating of the bag edge, and the upper and lower sides can be individually adjusted.
4. The replacement of the cutter can achieve a shape, pattern cutting, a shape joint cutting, stable and reliable bag cutting bag, simple operation, can be configured with wheel type coding machine, row type number, shelf life and so on.

Technical Parameters:

Model	Link-500FS
Power	1.8KW
Voltage	220V
Size	720*920*1680MM
Bag size	L:30-150MM W:20-140MM
Measurement range	1-20G/2-50G/10-100G/customizable
Total Weight	280KG
packing speed	35-40 packs/min
Sealing form	Three side seal/back seal
