## *Front and Back Labeling Machine YMTD*

The Front and Back Labeling Machine is used in labeling of bottles single side, two side and three side. Containers that can be labeled are as varied in sizes as they are in shapes. Containers range from flat, oval or square. They can be bottles, cans, pill containers, shampoo bottles, small toy boxes, spice jars, and even small cartons.

### **Features:**

- Round bottles, square bottles and flat bottles one-sided and double-sided bottles/box/carton labeling.
- High precision labeling, no bubble and no wrinkle.
- No bottle no labeling, no label.
- Maintenance-free motor provides better reliability and life span.
- Complete speed synchronization for each station.
- The labeler can be used as a standalone machine, or integrated into a production line.
- No tools required for quick change-overs.

## **Technical Parameters:**

- Capacity: 30~180pcs/min (customizable)
- Power supply: 220V 50/60Hz
- Power: 2kw
- Net weight: 450Kg
- Dimension: 2700×1500×1500mm
