

Chin Chin Making Cutting Machine GG-01

This chin chin making machine has high output, labor-saving, cost savings, safe and reliable, easy to maintain. This chin chin molding machine is a hand-cut analog food products developed from a multi-function cutting machine, including dough pressing, forming and conveying belt.

The operation is simple and the whole process only needs 1-2 persons. The width and thickness of chin chin can be adjusted according to the user. The cut chin chin is the same in size and will not appear sticking.

Technical Parameters:

Model	GG-01
Power	1.5KW,380V
Dimension	1530*560*1110 mm
Weight	200kg
Capacity	50-100 kg/h
Thickness Range	0-30 mm
Forming Range	Length: 23.5~188mm Width: 2~40mm
