## *ZS-XG70ZC Semi-automatic Plastic Bottle Cap Cork Pressing Capping Machine*

This desktop bottle cap-pressing machine is suitable for pressing cork, plastic lids, etc. Driven by high-quality cylinder, the machine can work stably, improving work efficiency. The pressing component can be customized according to caps' size. This machine is widely used in food, cosmetics, wine industries.

## **Technical Parameters:**

- Machine Name: Pneumatic Bottle Cap Pressing Machine
- Working Speed: 20-40 bottles/min(depend on cap size)
- Cap Diameter: 30-70mm(Can be customized)
- Bottle Height: ≤180mm(Can be customized)
- Working Pressure: 0.5Kpa
- Size of Air Compressor Connector: OD 8mm
- Net Weight: 12kg
- Gross Weight: 14.5kg
- Machine Size: 250\*280\*455mm
- Package Size: 610\*370\*420mm
