

F-2T3000 Double Head Filling Machine

JD production of 3000 grams of double head large quantity filling machine is suitable for tea, black tea and green tea, dry products, hardware accessories, electronic components, screws and nuts, grains, fruits and vegetables, frozen dumpling balls, cat food and dog food, fertilizer feed, Chinese herbal medicine, Chinese jujube wolfberry, French fries potato chips, popcorn, nuts and melon seeds, corn seeds, coffee beans, coffee powder, flour, pepper Powder, seasoning powder and other particles, powder, strip shape, irregular materials such as quantification, weighing, filling

Features

1. Multi-purpose of one machine: one machine can be used for weighing a variety of materials
2. Measuring accuracy: computer weighing, measuring accuracy
3. No damage material: vibration cutting principle, no extrusion and damage material
4. Computer board operation: simple operation, easy to learn and easy to use, old people will also use
5. Small machine size: no space, suitable for families, communities or small stores
6. The machine is quiet: it does not affect others when working
7. Large range: large weighing range, adjustable range
8. Automatic design: the machine automatically completes weighing, loading and cutting functions to reduce labor intensity

Technical parameters:

- Name: Double head 3000g large quantitative filling machine
- Weighing range: 10-3000 G
- Repacking speed: 10-15 times / min (depending on materials)
- Accuracy: about 3 G (depending on the material)
- Hopper capacity: Rice :about 50kg, flour: about 40kg
- Hopper size: Rice: 62 * 40 * 36cm (L*W*H)
- Voltage / power: 220V / 260W (can be changed to 110V/60HZ)
- Machine weight: 55kg
- Overall dimension: 65*59*150cm (L*W*H)
