

Back Sealing Powder Automatic Packaging Machine HTL-YJ388

This machine is applicable to the packaging of various powdery or micro granular materials such as food, chemical industry, medicine, condiment and daily necessities, such as soybean milk powder, coffee, white granulated sugar, solid beverage, seasoning powder and various pharmaceutical and pesticide flavor granular powder.

Technical Parameters:

Model	HTL-YJ388
Bag size	W:30-80 L;70-160
Measuring range	3-50
Packing speed	20-30
Packaging film thickness	0.03-0.07
Air consumption	0.5Mpa
Voltage	220V/50Hz
Machine weight	350
Dimensions	850*720*1900
