

CF-30TB Case Erectors

The Youngsun CF-30TB Carton Erector is an innovative new case erector that is capable of erecting and sealing cases with pressure-sensitive tape or hot-melt glue at speeds up to 25 cases per minute.

In addition to our already innovative and clean design, we incorporate scales and quick-release handles on every 25 to enable fast and easy changeovers. An easy-to-understand optional operator panel will guide the operator through the quick changeover process.

Technical Parameters

| Model | CF-30T |
|-------------------------------|--|
| Power supply | 380V 50Hz 1.8KW |
| Air pressure | 6kg/cm ² |
| Tape width | 4.8-7.2cm tape max.Length 2km |
| Working speed | 20-25 cases/min work height 1120+-50mm |
| Case Size | 250<l<410mm,165<w<300mm,330<w+h<640mm,l+w<700<td="" style="margin: 0px; padding: 0px;"></l<410mm,165<w<300mm,330<w+h<640mm,l+w<700<> |
| Machine appearance dimensions | L 4800mm x W 1560mm x H2250mm |
| Machine weight | 1100kg |
| Environment conditions | Humidity≤98% TEmperature 0-40℃ |
| Optional | with "Nordson" hot glue machine |
