

Sleeve Sealing Machine BSF-6030X

BSF-6030X semiautomatic sleeve sealing machine is a type of economic one among BSF series, simple operation, push the products manually or pneumatically, sealing the film and the products enter the shrink tunnel automatically, and used PE film to pack products.

- BSF-6030X adopts the imported air-cylinder, assure stable pushing and sealing.
- Adopts specially designed sealing cutter, results in perfect sealing line, avoid the film sticking the cutter
- The covered cylinder setting enhance the convenience for the operator; with rear pressing device assure even light product without any shifting
- The front frame is adjustable according to different product sizes

Application:

- BSF-6030X semiautomatic sleeve sealing machine used for packing beverage, beer and mineral water etc. with or without a tray; also suitable for shrink wrapping products such as electric appliance, auto spares, furniture and floor board etc.
- It's suitable for all kinds of shrink films such as PP, PE etc.

Parameters:

Model	BSF-6030X
Voltage(V/Hz)	380/50(3PH)
Power (kw)	1.5
Compressed Air(KW)	6.0
External Dimension (L×W×H)(mm)	550×290×300
Max. sealing length(mm)	600
Packing speed (Trays/min)	0-12
Infeed Conveyor Height (mm)	850±50
Film Used	PVC、PE
External Dimension (L×W×H)(mm)	1370×920×1800
Net Weight (kg)	380
