

Automatic “H” shaped folding and sealing machine BCHF20-01

Automatic “H” type sealing machine is also called automatic sealing machine. It adopts the tape to seal the carton, with excellent sealing quality, economic and fast, easy to adjust. It can finish the sealing action of upper and lower boxes at one time. It is the first choice of automatic packaging for enterprises.

The sealing machine produced by our company is light, durable and easy to operate; it is widely used in various industries such as daily chemical, medicine, food, toys, electronics and printing.

Features:

- Automatic folding cover “H” type sealing machine can adjust the width and height of the machine according to the carton specifications, adapt to various specifications of the carton, simple, fast and convenient, can save manpower and improve work efficiency.
- Automatic folding, lidding, automatic tape loading and unloading, economic, stable, fast and smooth.
- Adopt instant tape sealing, economical, fast and easy to adjust, can finish the up and down sealing action at one time.
- The parts are made of international famous brands, durable, with tight structure design, stable and reliable operation. Operation safety, low failure rate, long service life.
- Equipped with blade protection device to avoid accidents during operation, safe production and efficient packaging.
- The sealing effect is flat, standardized and beautiful.
- Simple operation, stable performance, reliable quality.

Technical Parameters:

Model	BCHF20-01
Closing speed	20 box/min
Suitable for carton	L : 320~500mm W : 200~500mm H : 180-500mm
Table height	Min:500mm Max:750mm
Use power	110/220V 50/60Hz
Power	1.5KW
Use air source	0.5-0.8MPA
Applicable tape	W : 48mm/60mm/75mm
Machine weight	850kg
Machine size	L : 3500mm W : 1700mm H : 1800mm
