

CX-ZG Automatic Capping Machine

This machine is mainly suitable for different materials and different specifications of bottle Capping. Applicable to the screw cap, ROPP cap. The pressure cover etc. Screw LIDS for constant torque, pressure can be adjusted conveniently. Compact and reasonable structure, convenient to connect the filling line with other equipment. According to customer requirements with dust cover. This equipment is fully in line with the new version of GMP requirements.

Function Characteristics

- The machine operation intuitive and convenient
- Frequency control of motor speed, production speed is adjustable, automatic counting
- All electrical components adopt Japan Or European brand
- This machine has simple structure, stable performance, convenient in maintenance
- Outside surface made of USU304 stainless steel full compliance with GMP requirements

Technical Parameters

Applied Bottle	20-500ml
Productive Capacity	30-60 pcs/min
Qualified Cap Putting	≥99%
Qualified Capping	≥99%
Power Supply	380V, 50HZ
Power	1.5KW
Net Weight	400KG
Dimension	2440(L)×1300(W)×1700(H)mm
