

SP-R2-D100(160) Automatic Seasoning Powder Filling Machine

This series seasoning powder filling machine could do work of measuring, can holding, and filling, etc, it can constitute the whole set can filling work line with other related machines, and suitable for kohl filling, glitter powder filling, pepper powder filling, cayenne pepper powder filling, milk powder filling, rice powder filling, flour filling, albumen powder filling, soy milk powder filling, coffee powder filling, s medicine powder filling, additive powder filling, essence powder filling, spice powder filling, seasoning powder filling and etc.

Features

- Stainless steel structure, level split hopper, easily to wash.
- Servo-motor drive auger. Servo-motor controlled turntable with stable performance.
- PLC, touch screen and weighing module control.
- With adjustable height-adjustment handwheel at reasonable height, easy to adjust the head position.
- With pneumatic can lifting device to assure the material not spilling out when filling.
- Weight-chosen device, to assure each product be qualified, so to leave the latter cull eliminator.
- To save all product's parameter formula for later use, save 10 sets at most.
- When changing the auger accessories, it is suitable for materials ranging from super fine powder to small granular.

Technical Specification

Model	SP-R2-D100	SP-R2-D160
Filling Weight	1-500g	10 – 5000g
Container Size	Φ20-100mm; H15-150mm	Φ30-160mm; H 50-260mm
Filling Accuracy	≤100g, ≤±2%; 100-500g,≤±1%	≤500g, ≤±1%; ≥500g,≤±0.5%;
Filling Speed	40-80 wide mouth bottles/min	40-80 wide mouth bottles/min
Power Supply	3P AC208-415V 50/60Hz	3P, AC208-415V, 50/60Hz
Total Power	3.52kw	4.42kw
Total Weight	700kg	900kg
Air Supply	0.1cbm/min, 0.6Mpa	0.1cbm/min, 0.6Mpa
Overall Dimension	1770×1320×1950mm	2245x2238x2425mm
Hopper Volume	25L	50L
