

AR-60 Automatic Double-sided Labeling Machine

AR-60 Automatic double-sides labeling machine is suitable to the medicine, the date, food industry etc cylindrical container or small the conical taper container of ChanBiao, double standard automatic positioning labeling. This machine expanding strong! Can be equipped with all kinds of printer to print, online real-time can use single, also can use connect Product line.

- 1、 The step or the servo motor system.
- 2、 Clutch design, make the label tension force more stable, and easy to improve labeling precision.
- 3、 Advanced color man-machine interface control system.
- 4、 Germany Siemens PLC control, high reliability.
- 5、 Use Germany, Japan magic eye.
- 6、 Machine structure is simple, compact, easy to operation and maintenance.
- 7、 Can add ribbon typewriter, or heat transfer machine and automatic send bottle opener (optional).

Technical Parameter:

Model	AR-60
Label width	20-180mm
Label length	20-200mm
Product range	L: 20mm~250mm
	W : 30mm~90mm
	H : 60mm~280mm
The outer diameter of the label roll	≤Φ200mm
The core diameter of the label roll	φ76mm
Speed	30-200 pcs/min
Accuracy	±1mm
Machine size (L *W* H)	2500*1600*1600
Machine weight	180kg
