

TM4200 High Accuracy Tablet / Capsule Counting Machine

High accuracy tablet/capsule counting machine TM4200 suits for irregular shape and regular shape of tablet and capsule counting requirement in bottles and bags. With PLC user friendly control system and touchscreen, it is easy to operate without training and adjustments to save downtime and boost productivity.

Features

1. Automatic tablet/capsule counting machine with conveyor system, can be connected with other automatic machine easily.
2. Anti-dust mode to ensure counting accuracy under environment full of dusts.
3. Dual counting machine can run individually.
4. Accurate bottle index system and bottle stopper.
5. Equipped with dust accumulation tray to clean dusts.
6. PLC user friendly control system and touchscreen for easy operation.
7. Memory parameter for fast changeover without re-set.
8. Advanced sensor detection system for precise counting.
9. Any errors will show on touchscreen to avoid mistakes.
10. Made of stainless steel and comply with CGMP standard.
11. Stainless steel foot type with casters for ease of movement.

Specification

- Counting speed: 1200~2000 pcs/min
- Tablet size: height> 2mm, diameter 2~40mm
- Accuracy: 100%
- Power supply: 220VAC, 50/60Hz
- Air pressure requirement: 2CFM at 90 PSI
- Dimension: (L) 2000mm (W)1000mm (H)1500mm
