

Sticker Labelling Machines LABELTUBE-60

The Automatic Empty Tube Sticker Labelling Machine Model LABELTUBE-60, Capping and Sticker Labeling Machine, Plugging, Capping and Sticker Labeling Machine is one of the most user friendly Sticker Label applicator on Empty Tube. The Machine incorporates latest sophisticated Micro Processor Control Label Dispensing system with user friendly Sensing system for Label and Product. The Machine is suitable for applying Wrap Round Label on Empty Plastic or Aluminium Tubes of Round Shape. Machine can be customized to meet individual customers requirement having different sizes of Tubes. Machine with automatic Tube Feeding system and similarly pneumatically operated Tube ejection System after Label Application. Machine designed for easy and quick change over from one size to another size of tube with the help of required change parts. Special features of applying Twin Label on products from Single Label Roll or application of Label on product at regular intervals is also available on this machine.

The Tube Labelling Machine is a highly efficient and versatile automation solution for labeling tubes in various industries. With precision and speed, it applies labels to tubes of different sizes, ensuring accuracy and consistency. This user-friendly machine enhances productivity, reduces manual labor, and streamlines the labeling process for optimal operational efficiency.

Technical Specifications:

Label Height	8 mm to 70 mm Standard*
Label Length	12 mm Minimum
Label Roll Dia.	300 to 400 mm depending on label height
Core Dia.	75/76 mm
Gap Between two Labels	appx. 3 mm
Tube Diameter and Height	Actual Product Samples required
Electrical	220 VAC Single Phase Power Supply (50/60 Hz)
Power	1.5 Amp. , 0.75 Kw
Filtered Compressed Air	4 to 5 Bar Air Pressure required
Speed	Up to 50 Labels per minute depending on Product and Label Size
Overall dimension	1750 mm(L) X 900 mm(W) X 1800 mm (H)
* <i>Specification can be changed as per customers requirements</i>
