

CGF24-24-8 Small PET Bottle Pure Mineral Drinking Water Filling Machine

CGF-series washing, filling, capping 3 in 1 unit is a new type equipment, which base on years' usual practice and adopt the advanced technology, and absorb many clients' views .It meets the client's requirement about filling different bottle size through one set. The suspension card bottleneck is adopted to make changing the bottle size more convenient. It can deliver the bottles automatically by blind and then washing, drying, filling, covering, capping by order automatically. It is impossible to cover lids when the bottles aren't up to the limited level, or don't arrive to the limited possible, or to adjust the speed freely, for it employs the advanced PLC system and frequency conversion and speed control system. The function of touching the screen enables the operation easier and faster. It is mainly used to non-carbonated beverage.

Technical parameter

Model	CGF24-24-8
Capacity	10000 PBH
Washing heads	24
Filling heads	24
Capping heads	8
suitable bottle	PET bottle, plastic bottle
Diameter of bottle	55-110mm
Height of bottle	150-310mm
Suitable cap	Plastic screw cap
Weight	4500kg
Main motor power	3kw
