

GPL-5545H+GPS-5030LLW Automatic High Speed Edge Sealing and Shrinking Machine

The full-automatic high-speed side sealing shrink packaging machine is used for automatic online high-speed shrink packaging of products. It uses photoelectric to automatically detect the products. The packaging capacity is 85 bags per minute. It is suitable for packaging products of different sizes and shapes. The touch screen controls the machine, which is convenient and simple to adjust. At the same time, it can store a variety of product packaging data. When using, it can be directly called out from the system, which is convenient and fast, and greatly shortens the time required for replacing packaged products. This type of shrink packing machine is widely used in mass production and packaging, printing, color boxes, greeting cards, photo albums, photo frames, medicine, electronics, daily chemicals, cosmetics, auto parts, hardware, food and other mass production industries.

FEATURES

- Precision accessories select components to ensure the stability of high-speed operation of the machine;
- Convenient adjustment: when the package size is changed, manually adjust the adjustment handle;
- Servo control: the servo motor controls the sealing cutter to ensure the sealing precision and the firmness of the sealing line;
- The storage function can store the product packaging parameters in the system and quickly convert the packaged products;
- Wide range of packaging, capable of packaging products of different sizes and shapes;
- The safer machine is equipped with safety protection measures and fault alarm function, so the operation is more assured.

SPECIFICATIONS

MODEL	GPL-5545H	GPS-5030LLW
Film	POF、PE	POF
Packing Speed	25-80pcs/min	20~80pcs/min
Packing Size	W+H≤450mm, H≤200mm, L>100mm	L≤500mm, W+H≤450mm, W≤350mm,H≤230mm
Cutter size / Tunnel size	520mm	L2000×W500×H300mm
Max Temperature	280°C	200°C
Electrical	220V/380V 50-60Hz 3 Phase	220V/380V 50-60Hz 3 Phase
Power	3KW	16KW
Max Current	6.5A	25A
Air Compressing	0.6MPa~0.85MPa	/
Table Height	850+900mm	850+900mm
Machine Size	L2080×W1640×H1380mm	L2350×W1095×H1325mm
Machine Weight	850 kg	600kg
