

All-in-One Packaging Machine JT-400W

The classification of food, frozen food, coffee beans, oats, sugar, salt (film), rice, pet food, puffed food, peanut, popcorn, nuts, seeds, hardware etc.

Technology Characteristic:

- PLC control with stable reliable biaxial high accuracy output and color touch screen, bag-making, measuring, filling, printing, cutting, and finished in one operation.
- Separate circuit boxes for pneumatic control and power control. Noise is low, and the circuit is more stable.
- Film-pulling with servo motor double belt: less pulling resistance, bag is formed in good shape with better appearance; belt is resistant to be worn-out.
- External film releasing mechanism: simpler and easier installation of packing film.
- Adjustment of bag deviation just needed to be controlled by the touch screen. Operation is very simple.
- Close down type mechanism, defending powder into inside of machine.
