

## *SH-FS04 2 Lanes Automatic High Speed Servo Rotor Pump Small Pouch Sachet Viscous Liquid Paste Filling Sealing Machine*

### **Main Feature**

- ▶ Filling is controlled by servo rotor pump, it has high filling accuracy. Suitable for filling paste into small pouch.
- ▶ Working speed can reach 80-100 pcs/min, multi filling lanes can be customized according to your production needs.

### **Parameter**

- Power Supply: 380V/220V/110V 4.5KW
- Working Speed: About 40-50pcs/min\*2 (depending on filling materials and sachet size)
- Filling Range: 1-40ml (customized)
- Filling Accuracy:  $\pm 1\%$
- Filling Lanes: 2 Lanes (customized)
- Filling Pump: Servo Rotor Pump
- Sachet Length: 40-170mm
- Sachet Width: 16mm-67mm
- Sealing Type: 3-side/back-side sealing
- Easy-tear Design: Dot-shape/V-shaped (customized)
- Hopper Capacity: 30L
- Air Supply:  $\geq 0.6\text{Mpa}$  0.6m<sup>3</sup>/min
- Machine Material: The whole machine is SUS304, the part in contact with materials is SUS316
- Machine Size: About 1100\*1800\*2350mm/ 43.3\*70.9\*92.5 inch
