

SUNHAN

SH-XG440S2 Automatic High Accuracy Servo Motor Skin Toner Lotion Plastic Bottle Caps Screw on Capping Machine With Cap Feeder

Main Feature

- ▶ This machine is equipped with a vibratory bowl sorter with two guide rails, it can be used for 2 sizes of caps, this can greatly save your production cost.
- ▶ Servo motor controls capping, the capping torsion can be controlled more accurately to ensure the capping efficiency.

Parameter

- Voltage: 110/220V 50-60HZ
- Machine power: About 3.55KW
- Suitable bottle size: H=50-300mm ϕ =30-120mm
- Suitable cap size: ϕ =20-60mm (Size of two caps needs to be close)
- Working speed: About 40 bottles/min
- Machine size: About 2000mm*765mm*1750mm
- Machine weight: About 400kg
- Package size: About 2060*800*1860mm
- Package weight: About 450kg
