

DF-S Semi Automatic Tabletop Powder Filling Machine for Milk Powder Flour

The DF-S Semi-Automatic Auger Filling Machine is a compact and reliable powder dosing solution designed for small to medium-sized production lines. Ideal for packaging free-flowing and non-free-flowing powders, it is widely applied in the food, pharmaceutical, chemical, and cosmetic industries.

This desktop-type auger filler provides precise and consistent filling through screw control, making it suitable for a wide range of powder products such as milk powder, coffee powder, protein powder, spices, additives, and more.

Technical Parameters

Model	DF-S10	DF-S15	DF-S30
Hopper capacity	8L	15L	30L
Voltage	220/380V		
Power(w)	300W		
Filling accuracy	±1%		
Filling Speed	15-25 pcs/min		
Filling Range	5-500g
