

XGF8-8-3 Automatic Bottle Washing, Filling and Capping Three in One Production Line

It is applied for filling the materials containing no mineral water, purified water, fruit juice and beverage and drinks.

Product features:

1. It can be applicable for kinds of bottles of different diameters without changing parts.
2. The trinity production line links guarantees its continuity and reliability in production.
3. Shortened production flow, improving the work efficiency, so it is convenient for the user to operate it.
4. The whole machine can produce in a closed environment, featuring in safety production hygiene.
5. The body and the parts touching the material are made of stainless steel.

Technical parameters:

Model	XGF8-8-3	XGF12-12-5
Production Capacity 500ml(bottles/hour	3000	4500
Suitable height(mm)	150-340	150-340
Suitable diameter(mm)	ø50-ø110	ø50-ø110
Spraying pressure(Mpa)		
Power supply(KW)	2.2	3.2
Filling Temperature	Room Temperature	Room Temperature
Overall Size L×W×H(mm)	2100×1500×2300	2400×1800×2300
Total weight(Kg)	2000	2500

Model	XGF18-18-6	XGF24-24-8
Production Capacity 500ml(bottles/hour	8000	10000
Suitable height(mm)	150-340	150-340
Suitable diameter(mm)	ø50-ø110	ø50-ø110
Spraying pressure(Mpa)	0.2-0.3	0.2-0.3
Power supply(KW)	3.8	4.8
Filling Temperature	Room Temperature	Room Temperature
Overall Size L×W×H(mm)	2500×1800×2300	2800×2000×2400
Total weight(Kg)	3000	4000
