

## ***CM-AC2000 Labeling machine***

Labeling machines are applied to various operations such as sticking a label on plane, post surface, single side or multi-sides of a package, sticking labels covering part or all of the surface of a cylinder, or sticking on sunken locations and at edges or corners. We can offer simple and economical solutions in China according to your requirements.

This model is designed for labeling cylindrical container which is difficult to stand (usually diameter 10-20mm, length 25-95mm); if the diameter is more than 20mm, it will be usable to make slight modification on the existing basis of the machine

**Technical Parameters:**

<b>Model</b>	<b>CM-AC2000</b>
Power supply	1PAC220V50/60HZ750W
Air pressure	2-5 kg/cm <sup>2</sup>
Applicable container diameter	Φ 10- Φ 20mm (need to customize if out of range)
Applicable container length	25-95mm (need to customize if out of range)
Applicable material	adhesive sticker
Applicable label range	L(25-70)xH(20-75)mm
Space between labels	≥4mm
Label scroll	Inner dia 76mm, Outer dia 280mm
Direction of label scroll	clockwise
Labeling speed	0-200bottles/min (depend on the length)
Labeling precision	±0.5mm (except container error)
Table height	900mm
Machine dimension	L2000mmxW700mmxH1650mm
Machine weight	250kg
